SCHOLARSHIP

Praveen Sir faced a lot of hardships in his student life but he didn't let that come in the way of his education. His determination and persistence inspired him and others around him to not let small malfunctions stop the entire working. Studying at St. Xavier's College, qualifying for tough CA examinations, clearing (14/15) Actuarial Papers, and establishing Actuators Educational Institute, the aim is that no student should leave studies because of financial reasons in the field of Actuaries, FRM, CFA, and CA.

Pravesh Thakur, a bright mind who secured AIR 1 in CM1 unfortunately drowned in water and is not with us today. To keep his name alive in the Actuarial Fraternity and for the motive that money shouldn't stop students from studying, we started PT scholarship to provide financial aid in training and mentoring to needy students with good academic excellence. This is a need based scholarship and we will provide concessions in our tuition fees.

The following conditions are essential to claim PT Scholarship:

- Student has to clear that paper in one go
- Students with a non-earning single parent
- Students with no parents
- Students annual family income is less than 3,00,000 per annum

Once the student has been placed by AEI team the amount of concession granted to the student should be paid back from his/her salary which will be further allocated for scholarship of other students.

****All the documents will be checked thoroughly by various professionals. Any fraud or misrepresentation of truth by any students will result in severe consequences and strict action towards students.****

As an actuarial aspirant, I was worried and confused- as when I started my journey I didn't know much about the profession. I then found out about AEI through google. My journey has been smooth ever since. Quality education, concept development and assistance in everything whether it be exam booking or preparation is provided by them. Both Praveen sir and Shivangee ma'am not only stress on the importance of passing but also on overall knowledge and concepts. Apart from academics they organise various workshops and sessions for our overall personal and professional development. All being said, I would strongly recommend Actuators to any aspirant. It's the go to place for actuarial science and I owe a significant part of my success to them.

Really good actuarial coaching provided by AEI, they cover everything, from building the base for the subject, introducing tough topics, motivating at the right time, the extra info they give, to making us exam ready with mocks

Their attitude really proves that they aren't here to make money but they are here to teach students and give knowledge

I'm studying for IFoA, and trust me it's the best you can get for actuaries from IFoA

One of the best Institutes to take Actuarial Coaching. They have Live Classes as well as Recorded Classes with classes for the Basic Concepts, Doubt Solving, Past Year Papers, Compiler Sums, Chapter wise Mock Papers, and Proper Exam Mock Papers as well. The only thing which we as a student has to do is BE CONSISTENT! Support from their side is amazing.

Studying at AEI is an amazing experience. The way of teaching is great and it mainly focuses on the concept building which is very helpful and the faculty is always there for supporting and providing constant guidance to the students. It is one of the best institutes for students pursuing actuarial science.
