WHO IS AN ACTUARY?

"Actuary" means a person qualified to calculate the financial and commercial impact, as well as the valuation of uncertainty and risk, of future events by using advanced techniques and models based on future scenarios under the following situations:

- FINANCIAL
- DEMOGRAPHIC
- SOCIAL
- ECONOMIC
- TECHNOLOGY
- PROBABILISTIC

WHAT DOES AN ACTUARY DO?

Actuaries are professionals skilled in evaluating the financial consequences of uncertain future events. They utilize data science and analytics to create financial models that predict risks and uncertainties based on past trends and future forecasts. Their expertise also extends to

WHO CAN BECOME AN ACTUARY?

By virtue of the role of an Actuary as a multi-skilled professional in core areas of financial risk and uncertainty, a candidate with strong skills in Mathematics, Statistics, Data Analytics, and Finance, along with good analytical skills and logical reasoning, coupled with a willingness to work hard continuously to learn and pass all actuarial examination subjects, can be an ideal candidate.

*Candidates typically work through the learning stage columns from left to right. Adjacent components, from column to column, indicate knowledge growth from introductory to advanced skills.

FLEXIBLE PATHWAY

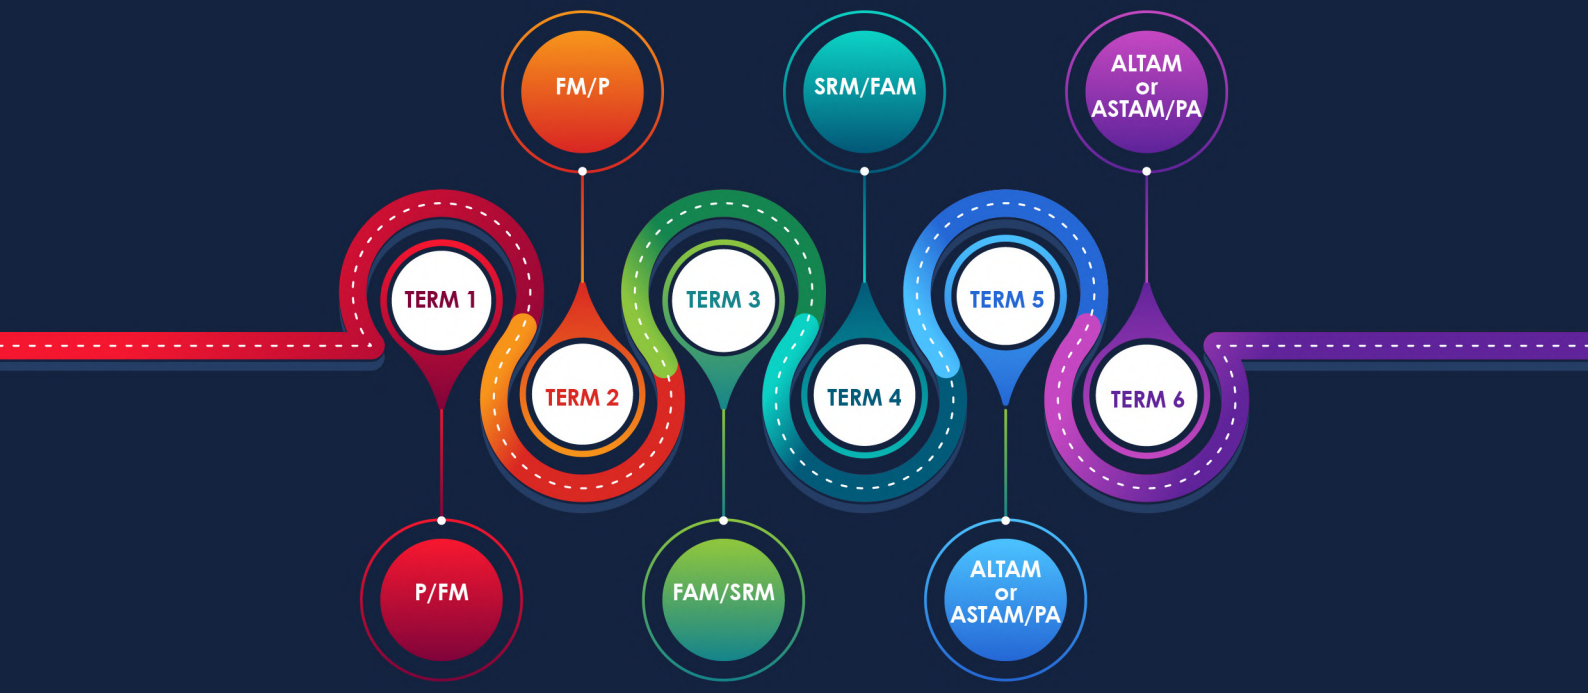

FSA = **4** **Technical Courses** + **DMAC** + **FAC**

- **2** Sequenced Courses + **2** Additional Courses
- DMAC: Decision Making & Communication Course
- FAC: Fellowship Admission Course

The updated FSA curriculum introduces a flexible pathway through a series of courses. A course includes a syllabus to guide you, materials to study and an exam to verify knowledge. The course approach gives you options to focus on a single practice area or combine courses from different areas for a more personalized approach that reflects your current role and future aspirations. The flexible pathway enables you to concentrate on the material that is most relevant to you while preserving the designation's high standards.

To earn your fellowship, you will need to complete all current Associate of the SOA (ASA) requirements, and four technical courses, including a two-course sequence in a single practice area. The Decision Making and Communication Course (DMAC) and the Fellowship Admission Course (FAC) then round out your pathway.

WHY AEI?

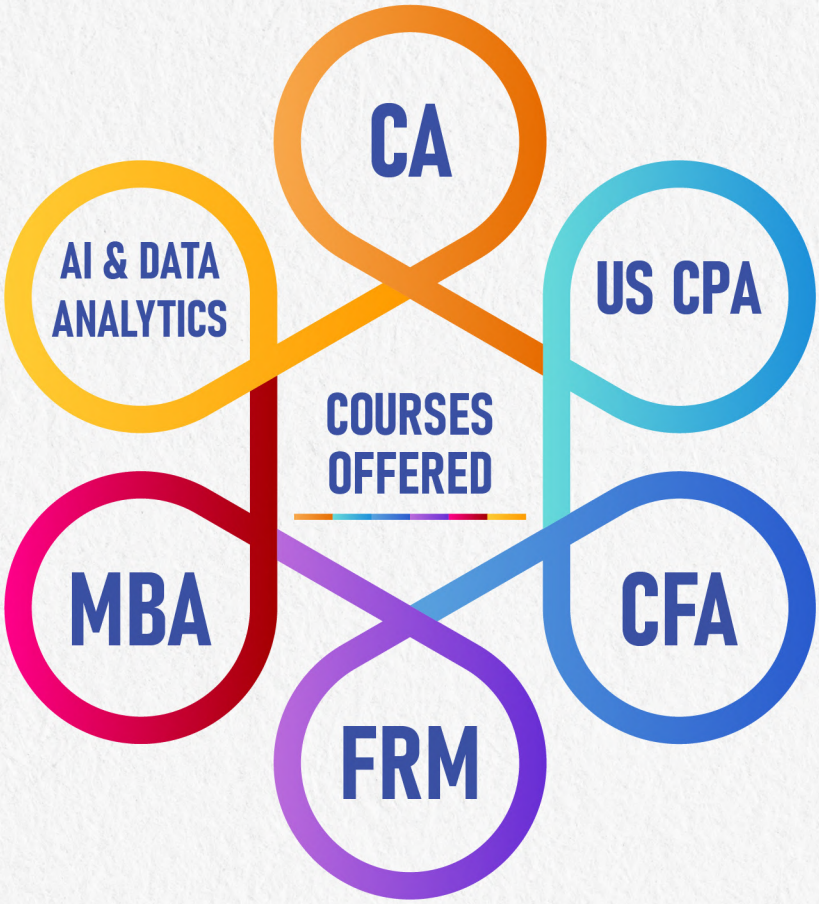

In 2015, we started in a small home with just passion and a clear vision. Today, Actuators Educational Institute is **India's #1 Actuarial Science Coaching Institute**, having taught over 10,000 students globally.

Under Praveen sir's leadership, we believe being an instructor isn't enough, we are mentors for life. With a team of 50+ experts, we focus on more than just teaching; we build careers through 100% placement support and strong corporate ties. It's a journey that grew from a simple room to a global community, all built on these 6 pillars:

PT SCHOLARSHIP

The PT Scholarship is a need-based initiative by Actuators Educational Institute to support students pursuing Actuarial Science, FRM, CFA, and CA, especially those facing financial constraints.

It is established in the memory of Lt. Pravesh Thakur (AIR 1, CM1) to honour his dedication and support students with strong academic potential. The programme is also inspired by Praveen sir's early challenges, making it a practical support system for deserving students.

The scholarship focuses on entry-stage students and is provided as a direct fee concession at enrollment. It follows a transparent approach based on financial background and counselling interaction, not competitive exams. A structured repayment model post placement ensures sustainability.
